Where Historic Paper Collections of the World Are Researched, Auctioned, Bought and Sold.

TERMS OF SALE

1) A 10% buyers charge will be added to the hammer price of each lot purchased.
2) All bids are per lot as numbered in this catalogue.
3) We reserve the right to withdraw any lot prior to sale.
4) All successful bidders shall be billed for postage, handling and insurance.
5) R.M. SMYTHE reserves the right to reject any bids not made in good faith and further reserves the right to ban any bidder from participation in its sales for any reason deemed appropriate at our sole discretion.
6) A SMYTHE auction bidder expressly waves any claim or right to any accounting, damages or compensation arising out of SMYTHE'S failure to receive or execute any bid due to exclusion from our sales, clerical errors or other causes. No bids will be accepted from any person who has not signed a registration form or a bidder sheet.
7) United States coins and currency will not, in conformity with law, be opened at less than face value.
8) No "buy" or "unlimited" bids will be accepted. We will act as agents for all mail bidders in the sale. Mail bids will be opened at the next interval over the second highest bid except where the intrinsic or regular market worth of the item dictates an opening at its fair market value. Floor bidding intervals will have an average increment of about 5% at the discretion of the auctioneer.
9) In the case of a tie between a mail bidder on the book and a bidder on the floor, the mail bidder shall take precedence.
10) All bids must be in whole dollar amounts; this includes percentage increases.
11) Check your bid sheets carefully. We can not assume any responsibility for errors made in the amount bid or lot numbers listed. Make sure your sheet is signed.
12) No minors may participate in our sales. Agents bidding on behalf of others will be held liable if their principals fail to make payment.
13) Payment for purchases is to be made in cash upon receipt of invoice. No lots may be taken away unless paid for in full. A late charge of 1 1/2% per month will be charged on the invoice total if payment is not received **within 10 days** of mailing the invoice. Bidders not known to us are required to deposit 25% of their total bids in advance.
14) Title docs not pass until payment in full is received. SMYTHE reserves the right to await clearance of any check before making delivery.
15) If a collection agency attorney is required to collect outstanding accounts, all agency and court costs, witness and attorney fees and all other costs of any kind incurred by SMYTHE shall be borne by the defendant. The signer of a SMYTHE bid sheet or participant in the auction concedes the jurisdiction of the courts of the U.S. in New York City as SMYTHE alone shall elect. The participant in a SMYTHE auction also assumes both corporate and personal liability for unpaid auction bills.
16) New York State sales taxes or other state sales or use taxes shall be levied, as required by law. Dealers and other non residents are reminded that sales tax must be collected unless Form ST-128.1 has been filed properly, under regulations effective 1 December 1982.
17) SMYTHE may reopen the bidding on a lot under the following circumstances: 1) SMYTHE has failed to execute correctly a mail bid. 2) A party purchasing the lot on the floor has done so in error. 3) Where a protest is made after the hammer has fallen but before the bidding has commenced on the next lot. 4) Where the auctioneer has determined that he has overlooked a party still bidding on the lot but before the calling of the next lot. 5) At the discretion of the Auctioneer.
18) In the event of dispute, the auctioneer's decision is final.

Guarantees & Rights of Recovery

19) No price adjustments will be made on the hammer price of a lot whether there is a complaint about the whole lot or only one item in it. The entire lot must be returned if a refund is to be made.
20) Persons placing bids are responsible for meeting the maximum amounts represented on their bid sheets. SMYTHE reserves the right to reject frivolous complaints and to take appropriate actions against such bidders under paragraphs 5 and 15 above.
21) All material in this catalogue is guaranteed to be genuine unless otherwise described.
22) No lots may be returned by floor bidders except for nonauthenticity.
23) Mail bidders may return lots for reasons of non-authenticity or improper description within 5 days of receipt or twenty one days from the day of the auction, whichever comes first. Failure to execute this privilege in a timely manner either from a failure to pay promptly or from any other cause shall void it.
24) In cases where a question has arisen as to the authenticity of an item, the purchaser must, before settlement day (30 days after the sale), notify SMYTHE of his intention to return the item, confirmed in writing. The item will be examined by a recognized expert; if the item proves authentic, the sale will be consummated. If the item is not authentic, the sale price will be refunded.
25) In the event of unsuccessful litigation the plaintiff shall pay SMYTHE'S legal costs, counsel and witness fees and all other costs incurred by it in defense against such suit together with interest on any funds expended at the New York prime rate from the date of actual disbursement.
26) The same protections applicable to SMYTHE apply to each and every one of their officers and employees unless they shall be convicted of knowingly selling false or stolen goods.
27) SMYTHE assumes no liability for merchandise lost, stolen or damaged while in the possession of a party to whom merchandise has been shipped. The purchaser is solely responsible for the safe keeping and insurance of any items in their possession.
28) All accounts are payable to SMYTHE in U.S. funds and remit- tances must cover the service charges for foreign drafts which shall be added to each invoice. No credit card payments will be received by SMYTHE for auction sales.
29) The placing of a bid shall constitute **full acceptance of the foregoing terms and conditions of sale.**

While the bulk of the items offered in this sale are unreserved, items indicated by a " ★ " in front of the estimate are reserved at the lower price indicated. For example, an item with an estimate ★**($250-Up)** is reserved by the consignor at $250.00.

R. M. Smythe reserves the right to include our own material in this auction as well as to bid on any item in this sale. R. M. Smythe & Co. has advanced money (where requested) to consignors and in addition has agreed to advance money to purchasers who have established credit in advance.

CONDITION TERMINOLOGY FOR STOCK CERTIFICATES

Unlike coins and paper money, the grading of stocks and bonds has not developed to the point where everyone agrees on or uses similar standards. The very nature of stocks and bonds defies a grading system based, for example, on wear, or folds.

Instead of trying to develop a strict grading system, we have used terminology designed to convey a strictly subjective impression of the items we endeavor to describe.

Fine - Slightly below average. Folds may be heavy with splits slightly into the design elements, but with no pieces missing. More severe flaws will be mentioned.

Very Fine (VF) - The average grade of most of the stocks and bonds we encounter. A **Very Fine** share certificate will have several light to moderate folds, and the paper will show obvious wear or softness. Bonds that were originally folded by the printer may have several additional folds. There may be minor edge roughness, but any splits that extend into the designs will be described. Very light soiling is typical, but heavier stains or foxing will be mentioned.

Very Fine+ (VF+) - Obviously used or worn, but brighter or cleaner than the average example.

Extremely Fine (EF) - A well above average example. Stocks may show a few light to moderate folds. Bonds that were originally folded may have a few light to moderate extra folds. The paper will retain most of the original crispness and brightness. The margins will be free from noticeable edge splits, stains or other problems.

Extremely Fine+ (EF+) - As made, or nearly so.

The Invention That Revolutionized Stock Trading

In 1867 E.A. Callahan, an employee of the New York Stock Exchange, invented a telegraphic device that could be used to report transactions. Sixteen years later, Thomas Edison improved the design and began manufacturing what is now recognized as the classic stock ticker, utilized well into the 1930's. In today's world of instant wireless communications the glass-domed stock ticker is obsolete, except as a symbol of America's technology and rich financial history.

We buy, sell and rent stock tickers. Please call us for further information.

Pierce bought out his partners and began manufacturing bicycles. In 1900, he developed a steam-powered car, and further refinements led to the production of a successful gasoline-powered automobile, the *Motorette,* in 1901. Twenty-seven years later, Pierce-Arrow merged with Studebaker, but Pierce-Arrow Motor Car Company continued to operate independently. By the early 1930's, Pierce-Arrow was designing and building some of the finest luxury cars in America.

Widely advertised and promoted, this company was nothing but a big fraud organized to draw "into a charmed circle of hasheesh-laden atmosphere all the smart gentry who have succeeded in getting a little money ahead at the cost of fellow-beings and whose idea it is to get something for nothing." A prototype was built, but there was nothing fancy or revolutionary about the car, contrary to the promoters' claims that it was powered by liquid air and equipped with a device which would increase horsepower from two to five by the "mere turning of a screw". The concept of the car made little engineering sense, and it made even less sense as an investment. Though $1,500,000 in assets were reported, only $7,500 was ever found. A scarce, early automobile certificate with a great story behind it.

The Pan Motor case was considered one the most unique stock fraud in the history of high finance. Pandolfo built a large plant and lured investors by claiming extravagant output. He successfully bilked some 70,000 unsuspecting investors out of more than $9,500,000. He was convicted for fraud by the Federal Court of Chicago in 1919. The certificate is signed by Governor Geary and also by Auditor-General, Hartraft, who succeeded to the governorship on Geary's death in 1873. This is accompanied by a nice typed write up.

5510 **CA.** County of Yuba, on behalf of the Yuba RR. **$1000.** (1866). 8% Cu 20 year gold bond. Britton & Co. **VF. (Photo)** *($300-Up)*

There is no mention of this RR in Poor's 1869-1870 manual. The county was supposed to provide the RR with $65,000 per the act of February 13, 1866. The bond was evidently issued, for it has a red ink notation on the face that it was redeemed in 1876.

Please note that a 10% buyer's charge will be added on all purchases.

5511 **IN.** City of Madison. **$1000.** (1892). 12 year 4½% Cu Water Works bond. City river scene at the top center. Louisville litho., Green and black. **VF.** *(np)* ***($65-Up)***

Issued under a state law March 14, 1892, per a city law of June 2, 1892, section No.3230. This was supposed to clean up $100,000 of city water works debt incurred prior to the change in the state constitution. As the bond is number 202, this raises interesting questions as to how many were actually issued.

5512 **LA.** Parish of Concordia. **$100.** B. (1867). 12 year 6% Cu bond. ER. Bloomfield and Steel. **VF. (Photo)** ***($60-Up)***

5516 **MI.** County of Bay. **$500.** (1867). 20 year, 10% Cu bonds. Calvert Lith, Detroit. ER. **VF,** no coupons. **(Photo)** ***($150-Up)***

Issued for the benefit of the Bay City and East Saganaw RR, payable in NYC at the Importers and Traders NB. A total of 150 bonds of $500 each were issued in support of this operation which was connected with the Flint, Pere Marquette RR et al. The railroad evidently sold these bonds for cash and built the railroad, for it is reported in Poor's (1869-1870), that 12 miles of track were completed and that the railroad had been leased to the Flint, Pere Marquette RR etc.

5517 **MS.** County of Harrison. **$100.** (1887). 20 year, Cu 6% bond, issued on behalf of the Gulf and Ship Island RR. **VF,** stamp cancelled. *(np)* ***($75-Up)***

Issued under an act of the legislature dated February 23, 1882. It was part of an issue of $50,000 but it is doubtful that much of a RR was ever built, as the islands lie well off the Mississippi coast.

5518 **NV.** County of Storey. **$1000.** (1869). 6 Year 7% Cu bond. Britton & Rey. S.F. **VF,** CC. **(Photo)** ***($75-Up)***

This was the first group of 100 bonds issued by the authority of the Nevada legislature, (act approved February 1, 1869) allowing the county to issue $300,000 of bonds for the benefit of the Virginia and Truchee RR. This road refused to furnish Poor's any information on its operations, which were largely directed to moving ore to the Central Pacific.

5519 **NV.** City of Virginia Water Bonds. **$1000.** (1877). 3 year 12% Cu gold bond. City Hall at center. A.L. Bancross, S.F. Bronze and black. **VF. (Photo)** ***($100-Up)***

Bond due 1902, issued under the New York State law of Section 4, Chapter 583, 1871 and also Chapter 290, Act of April 5, 1871 and April 6, 1871, Chapter 322. These set up a board to approve and pay for park improvements beyond the grasp of the corrupt local officials. The improvements were largely for Central Park under the leadership of Frederick Law Olmsted. Signed by Mayor A. Oakley Hall, who narrowly escaped corruption charges.

This kind of certificate was issued to those who provided equipment for the Massachusetts soldiers going off to fight in the Civil War. The donor in this case provided bags, needlebooks, pocket handkerchiefs and socks. Please observe that this work was done in response to an appeal from President Lincoln. Note also that the certificate is signed by one of Boston's leading grand dames, Mrs. Harrison Gray Otis. Many years later, when she gave a buffet, non-RSVP dinner, some wag had her invitations counterfeited and perpetrated a hoax, by inviting a horde of nearly a thousand persons to her home, thereby creating chaos and embarrassment as well a satire on Boston's social set

What Are "SPECIMENS"?

When bank note companies print stocks or bonds for their customers they often print a few additional copies for various purposes. Some are kept in the bank note company's reference files. Others are sent to the customers who use them as counterfeit detectors. These extra copies usually have the word "SPECIMEN" printed into the signature blocks and they have "00000" serial numbers so that they cannot be mis-represented as regularly issued stocks or bonds. While SPECIMENS lack the signatures of the coporate officials, they are usually in pristine condition, and often they are the only way to obtain an example of a particular stock and bond.

Stock & Bond Proofs

Please note: Almost all of the proof certificates found in bank note company archives have original notations in colored crayon indicating the dates printed, document number ("1" of 3 for example), or indications of corrections to be made. These crayon notations were part of the production process and most collectors view them in a positive or neutral manner, just as they view the typical cancellations found on fully issued examples. For this reason we only mention crayon notations on proofs where they are excessive or where they affect the vignette or some other major design element.

A further example of a French company investing in the new California goldfields. In its prospectus, Aurifere said its F10 shares would surely earn F450 per year for 6 years, without counting 'extra dividends'. It bought 4 machines, each equal to 80 men, to work the new mines. Far from earning the expected big profits, the company seems to have disappeared by 1851/2. Nevada State Controller's Warrants

In 1982 the State of Nevada held a sale of historic financial documents. The items were offered to Nevada residents on a first come, first served basis, and most of the material was sold. Over a decade later, what remained in the State Archives was offered as a lot in a sealed-bid auction, and the purchaser was a prominent Western collector. He pulled out the items he wanted for his personal collection and consigned the remaining examples to us. To the best of our knowledge the following lots represent the only groups of this material available to dealers or collectors.

In the late 1860's the Erie was subjected to an enormous amount of exploitation and plunder at the hands of Daniel Drew, Jim Fiske and Jay Gould. In later years, despite dire predictions from the press, the railroad was regenerated through careful management.

Very little in the way of Erie stock has come on the market, and the few examples we have offered previously realized close to $100 each.
